SPRINGFIELD PARK PLACE WINDOW&DOOR SIDING PROJECT **AUGUST 19TH, 2022**

Dear SPP Residents:

As you know by now the good news is that we are scheduled to complete the final phase of the SPP siding project, starting September 6th (weather permitting) this will include Buildings 400, 2300 and 2400.

Whether you are an owner that lives on-site or off-site the property and have been planning on replacing your windows or doors, we are recommending that it a very good time to contact National to order new windows and/or doors.

As National will be on-site replacing siding on the buildings listed, they have the equipment and labor installers on SPP premises as they will be able to pass cost-effective savings to all our residents. Please see attached National pricing schedule. As most of you aware, contractors' costs for individual projects are generally always higher.

If you choose to use an outside contractor, please make sure to contact Management and fill out an exterior modification form.

Depending on your requirements, please complete the attached form and submit to National by Monday, August 29, 2022, if you choose to use a vendor other than National, please submit your exterior modification form from our website and submit to the Management office at info@springfieldparkplace.com by Monday, August 29, 2022.

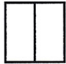

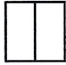

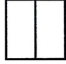

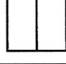

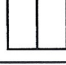

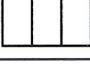

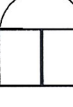

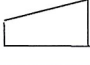

Respectfully Yours,

SPP Board of Directors
Community Manager
