

The Teddy Bear Project

The Teddy Bear Project is genuinely heartwarming. Donating new teddy bears to children in the foster care system through *CASA* (Court-Appointed Special Advocates) and to *DCPP* (Division of Child Protection and Permanency) is an excellent initiative. *CASA* is a non-profit organization that advocates for the best interests of abused and neglected children in foster care. It works through trained volunteers to ensure that services and assistance are available to children while helping them move to safe and permanent homes.

Vulnerable children are often removed from their homes or placed under court supervision due to abuse, neglect, or abandonment. A new teddy bear can comfort these children during such sad, stressful, and uncertain times.

If you would like to contribute to this initiative, please bring a new, unwrapped teddy bear to the management office at 2308 Park Place, Springfield, NJ 07081 by Friday, December 5, 2025.

We can help change a child's story; together, we can change lives!

A heartfelt thank you from Roch & Maria LePage, founders of The Teddy Bear Project, and all the children who benefit from your donation.
